

AG-2620 Added fields imported as part of Paymode-X file

User Group: All Business Units/Users with Access to *Unapplied Commissions*

Summary: New information mapped in the *Paymode-X* files upload process. (No changes in the user experience during the upload process)

Previously, the *Paymode-X* files upload process did not include the **pick-up dates** for car vendors and **sail date** for cruise vendors, even though the file contained that information.

This new feature fixes that by mapping the **pick-up** and **sail dates** and showing it as additional information in each of the commission lines (seen in the *Unapplied Commissions* screen).

Dashboard / Accounting > Unapplied Commissions Matching

All Matched **Unmatched** Fuzzy
